

## PREPARATION AND PASSING OF THE CERTIFICATE OF NEUROLOGICAL MUSIC THERAPIST

### Objectives

This seminary is part of professional Education organized at Paul-Valéry Montpellier University to provide a complementary training to graduated music therapists, neuropsychologists and neurologists.

The 30-hour program will provide the board-certified music therapist with 36 CMTE credits that can be applied towards recertification. Your certificate of completion can be submitted as proof of your attendance and participation.

Completion of this course does not ensure that the participant is currently a Board Certified Music Therapist (MT-BC).

### Program

- Scientific Foundations of NMT
- Neuropathology/ Disease Review
- Sensorimotor Techniques : Rhythmic Auditory Stimulation, Pattern Sensory Enhancement, Therapeutic Instrumental Playing,
- Speech Techniques : Melodic Intonation Therapy, Musical Speech Stimulation, Rhythmic Speech Cueing, Vocal Intonation Therapy, Therapeutic Singing, Oral Motor and Respiratory Exercises, Developmental Speech and Language Training through Music, Symbolic Communication Training through Music,
